

KT Drop Leg - Universal thigh mount - KT Gunfighter/Defender install

1. Your KT Drop Leg will come pre-assembled. Notice that the vertical strap that attaches to your Gun Belt is installed with the "USA" mark on the metal slide is facing out for a snag free draw.

2. Undo the female end of the side release buckle.

3. Slide the female end of the horizontal strap through the KT Gunfighter/Defender's front belt loop only.

4. Undo the male end of the buckle's strap and loop trough the KT Gunfighter/Defender's rear belt loop.

5. Reattach the female end of buckle and loop back trough both of the belt loops.

6. Fold the loose end back and secure with the included belt keeper. Notice that the belt keeper's loose end is facing your leg to prevent it from coming undone.

7. Reattach the male end of the buckle, make your adjustments, and secure with a belt keeper.
